

HAVE YOU HEARD OF EUROPASS CV YET?

The Europass CV is a standard CV format that people can use to detail their qualifications and skills in a straightforward and understandable manner. Europass CV provides individual citizens with a model for the systematic, chronological and flexible presentation of their qualifications and skills.

Have you just finished your studies and/or have little experience about how a proper CV looks like?

KITE applies the EU approved and supported CV template "Europass", taking into consideration every detail about you that is important.

You have many great skills and competences, but you only want to highlight some of them in your CV?

Pick and mix as you like from your complete Master CV and produce a customized document.

Aren't you tired of re-writing your CV every time you apply for a new job?

No more cut and paste with KITE.

Wanted to publish your CV on the Internet without programming skills?

KITE provides you with a user-friendly tool.

Would you like to avoid your data spreading around without your permission? Do you want to protect your customized CVs by sending them to only one or two specific employers?

Password protect your CVs thanks to the KITE plugin and address them to whomever you like.

Have you thought about using blogs for your online job-search?

Try it!

WHY WOULD KITE INTEREST YOU?

Whether you have freshly graduated and are trying to find your first job or you are an experienced jobseeker seeking a change, you are facing the inevitable task of putting together a convincing CV. A good resume shows your competencies and strengths and proves to your future interviewers that you are the perfect candidate for the position they are offering. KITE helps you to select the relevant items easily from your master CV, by utilizing the widely acknowledged Europass template.

Imagine that you are applying for more than one position at different companies. KITE allows you to create a master document featuring all your skills and abilities, from which you can quickly highlight specific talents and tailor an individual CV match the position offered ...or would you prefer once writing down everything about yourself and then select quickly from your universal list? Be computer-phobic or digitally literate, the KITE plugin helps you create professional and thorough CVs suitable for multiple purposes with the least effort and within the shortest time you can imagine.

BACKGROUND AND AIMS

Due to the known problems of the large scale adoption of the single framework for the transparency of the qualifications and competences, the ease with which the individual will be able to use the electronic documents which form Europass will be a major factor of its adoption. This is why KITE aimed to evaluate the potential impact of the use of blogs on the adoption process of the Europass-CV.

The contribution of the KITE project to this strategic initiative is to put an emphasis on the person, the control over personal data, and the use of mass-endorsed publication tools as vectors of the Europass-CV. To do so, KITE is offering an implementation of the Europass-CV, as a plugin of open source weblogs. With KITE, everybody will be entitled to add to their personal weblog page (blog) a smart extension, based on open standards, to make their own professional profile more accessible, more browsable and searchable through the web, therefore improving their online job search. Above all, KITE will make everybody's profile compliant with today's HR standards (HR-XML) for easy, fast and convenient European-scale comparison and inclusion in public databases.

EXPECTED RESULTS

- ▶ Study report **"Online job search today: services, uses and needs"**;
- ▶ Study report **"Online job search tomorrow: services, uses and needs"**;
- ▶ Europass CV Plugin, HR-XML compliant for WordPress 2.0, ELGG and DotClear 2.0;
- ▶ User guides and tutorials of the Europass-CV plugin;
- ▶ Test of the use of the blogs on the adoption process of the Europass-CV on a population of Job Seekers and Young people participating in a Leonardo Mobility programme;
- ▶ Comparative Report **"Impact of the use of the blogs on the adoption process of the Europass-CV"**;
- ▶ Actions of valorisation and transnational seminar **"State of the art and perspectives of the professional mobility in Europe through the Internet"**.
